

Fire Prevention Week October 5 to 11

October 5 to 11 is Fire Prevention Week, and we would like the 1952 Fire Prevention Week to be one of the best so far within the Village of Irma. Here's hoping for a general cleaning and tidying up of all places of business, and homes. Clean up those fire hazards, making 1952 surpass all Fire Prevention Weeks in previous years.

Yours truly,
Volunteer Fire Dept.,
V. S. Sampson Fire Chief.

THE COMMUNITY BOOSTER SECTION

It's good business policy to purchase everything you can in the community where you make your living. The businessmen of the community contribute a large proportion of local taxes and to every worthwhile community effort.

Local businessmen are doing their utmost to serve everyone by stocking all lines of goods which are available. Your patronage enables them to extend their efforts to present you with the largest and widest range of goods.

Shop in our own home town. Spend your money with those who support your district.

Football Stars Visit Hospital

Four year old Lorne, a patient at the Alberta Red Cross Crippled Children's hospital, shows Sugarfoot Anderson and Bob Mike of the Calgary Stampede that he knows how to kick a football despite his crutches and a brace on his right foot. Sugarfoot plays along by holding the ball for the attractive youngster.

Jarrow News

Victor Carter had the misfortune to lose his one ton Fargo truck by fire Saturday morning. He was on his way to Thurston's to help with the threshing when the front of the truck burst into flames. Luckily for Vic he was able to get out without sustaining any injury to himself.

The W. A. meeting which was to meet with Mrs. H. Smith on the 7th has been postponed until the 21st.

The Rev. H. W. Inglis will conduct a service at the Jarow church on October 26 at 3 p.m. Please keep this date in mind.

Gilbert Lovig met with a painful accident when the cylinder head of his tractor which he was trying to put back into place, slipped and fell on his foot. Although confined to Hardy's hospital a few days for a fractured foot, he is now able to be home again.

Mr. Floyd Lockhart of Edmonton has been visiting with his parents.

Mr. and Mrs. Mike Bilo are now enjoying their holidays.
Mr. and Mrs. Sherman and Bobby are spending part of their holiday with Mr. and Mrs. Joe Boultier of Mantario.

The two men relieving at the station now are, station agent Frank Keough and night operator Robert Johnson.

Northern Nuggets

Mr. Bill Guy was a recent business visitor in Edmonton.

Mr. Hughie Muir, formerly of the Paschenale district and now a resident of Victoria, B.C., has been a guest of Mr. and Mrs. W. Prior and Mr. and Mrs. E. Prior. Mr. and Mrs. J. Clisdell visited their son Jack at the University hospital, Edmonton, on Sunday and report his condition is improved. Little Alan McRoberts is confined of his bed with an attack of tonsillitis.

David Bars, a geologist in the employ of an American Oil Co., will be working at Athabasca for the next two months. Dave is the son of Mr. and Mrs. L. Bars and has had his headquarters at Calgary.

Miss Marjorie Coulman was an Edmonton visitor on Saturday.

Mr. Ivan Currie is assisting in the building of the two-room addition to Clifford Jones' house.

Messrs. B. Summersgill, Faust and Fred Erickson, all of Edmonton, were Sunday guests of Mr. and Mrs. S. D. Coulman.

IS THIS A RECORD?

Mrs. V. Hutchinson was presented with three medium sized "Canus" potatoes late last spring. She made thirteen sets out of these and planted them. Vic dug them up on October 1 and they turned up to be a wash tub full, weighing 73 lbs. net.

ST. MARY'S CHURCH
The Harvest Thanksgiving service will be held in St. Mary's church on Sunday, October 12 at 2:30 p.m. You are cordially invited to worship with us at this service.

IN MEMORIAM
In loving memory of our Dad, Mr. James Fenton, who passed away October 10, 1950.
"Two years have passed since that sad day,
When our dear Dad was called away.
Not just today, but every day,
In silence, we remember.
Daughters Inez and Rena.

During the day, the film, "A Home and School Meets" will be shown. This offers practical help to organizations. Program planning will be considered under the leadership of Mrs. Kenn Tory, Regional Vice-President.

Such a chance to share Association problems is extended to this part of the province only once in several years. Every person interested in the child in home, school and community is urged to enjoy convention opportunities at the Home and School Conference for a whole or part of the day.

The executive of the Irma Home and School hopes that in spite of the rush of work at this time of year, some members will be able to attend the conference. Anyone desiring to attend should communicate with Mr. H. W. Inglis, President of the Irma H.S.A.

Card of Thanks
I sincerely wish to thank all my friends and relatives for the cards, letters, flowers, fruit and candy, sent me while in the hospital. I appreciate your kindness so much.
—Mrs. John Halvorsen.

Farmer Loses Foot In Accident

VEGREVILLE—Tony Zuk, 39, a farmer of inland in the Vegreville district, lost his right foot in a threshing accident Wednesday.

Mr. Zuk, a well-known farmer of this district, lost his foot when he slipped and fell into a threshing machine while harvesting on his farm.

You get results when you use a want ad in the Irma Times.

Official Installation Of Irma Elks Lodge Wednesday, Oct. 15

P. A. Miquelon of Edmonton, Dominion Grand Organizer of the Order of Elks who has been in Irma for the past week announces that the official institution meeting of the Irma Lodge will take place in the Irma Theatre on Wednesday evening, October 15 at 8 p.m. and all applicants for membership are advised to appear on time. Visiting officials and members of the Order from several neighboring lodges will be present in large numbers and it is expected that K. L. Lawson of Edmonton, Grand Exalted Ruler of the Order in Canada, will also be in attendance to welcome in the "baby" lodge of the Province.

A lunch and social hour will follow the ceremonies of the evening.

H.S.A. Conference To be Held In Vermilion

Ten Home and School Associations of the Vermilion-Wainwright area will hold an all-day conference at the Vermilion School of Agriculture on Wednesday, Oct. 15. This meeting affords a revitalizing program for active associations. It offers an opportunity to discover what Home and School comprises, to communities planning organization. Registration takes place between nine-thirty and ten a.m.

Mrs. E. H. Boalch, President of the Alberta Federation of Home and School Associations will be present to offer leadership assistance. During the evening she will chair a "model Home and School meeting." An outstanding feature of the Conference is the play "Scattered Showers" to be presented by the Wainwright Home and School Association. This play received considerable publicity thru Canada when Toronto put the play on before 1,000 patrons. Prepared by the Mental Health Association, the play depicts parents problems shared by three mothers. Discussion following the play will be led by Mr. S. Lindstedt, Supt. of Wainwright School Division. The evening program begins at 7:30.

During the day, the film, "A Home and School Meets" will be shown. This offers practical help to organizations. Program planning will be considered under the leadership of Mrs. Kenn Tory, Regional Vice-President.

Such a chance to share Association problems is extended to this part of the province only once in several years. Every person interested in the child in home, school and community is urged to enjoy convention opportunities at the Home and School Conference for a whole or part of the day.

The executive of the Irma Home and School hopes that in spite of the rush of work at this time of year, some members will be able to attend the conference. Anyone desiring to attend should communicate with Mr. H. W. Inglis, President of the Irma H.S.A.

Glen-Coa Gleanings

Mrs. Hjelle of Marysville, Wash., has been visiting her brothers, Dendrew and Oscar Likness and family.

Miss Arlene Erickson has spent the past week visiting relatives and friends. Arlene has returned to Seattle after a four months tour of Europe where she visited eleven countries. Her many souvenirs make a wonderful display, a silver coffee spoon from each country, some beautiful cups and saucers, many original wooden souvenirs from Norway as well as lovely woolen throws. And what a wealth of snaps and pictures Arlene has to show!

Don't forget the special Luther League program next Sunday evening, October 12.

Gadget Finds Minerals In Areas Impossible To Prospect On Foot

By DAVID A. HELLER
(CPC Correspondent)

WASHINGTON. — Gone are the days when hard-bitten sourdoughs and prospectors in canoes carry North America's hopes for the discovery of new minerals and oil.

Mules, canoes and dog teams have been put out of business by the discovery of a brand-new gadget called the airborne magnetometer which can cover more ground in a day than a prospector on foot could in months. What's more, the aerial prospectors can probe for hidden oil and minerals far beneath the earth's surface with great accuracy.

The story of the airborne magnetometer is a twentieth century saga combining science and adventure with such things as head-hunters, enemy submarines and the world's most dangerous flying throw-in.

The magnetometer, almost identical in size and shape with an ordinary cigarette, is really an extremely sensitive magnet. Developed as an anti-submarine weapon during World War II, it sent many a German U-boat to Davy Jones' locker, but it has proved even more successful as a sky-borne prospector for oil, iron, tin, gold and other minerals.

The airborne magnetometer looks like a bomb—the sensitive portion has to be housed in a plywood container to protect it—and the gadget is trailed by a line about 75 feet under the airplane as it flies over the countryside to be prospected.

Whenever the magnet passes over mineral-bearing rock, it registers on a chart, from which the exact location of the deposit can be found. The big advantage prospecting by air has is that mountains, lakes and other barriers can easily be overcome.

For example, 80,000 square miles of ocean floor between Florida and the Bahamas was recently prospected for oil with the use of the "bird". It cost five oil companies a cool million dollars to conduct the survey.

By the use of the ultra-sensitive magnet, minerals like iron and gold can be definitely located. Prospecting for oil is not quite as certain, but the magnet can reveal promising formations and, equally important, can show where it would be impossible for oil to be.

The airborne magnetometer has been in use since 1943. It was developed by the Gulf Oil company at the cost of millions of dollars and turned over to the navy as an anti-submarine weapon when World War II came along.

It played a big role in keeping the Mediterranean sea an Axis-free zone during World War II. Prior to its use, German submarines had an effective trick for getting through the Straits of Gibraltar from the Atlantic to the Mediterranean to play hob with our shipping.

GEMS OF THOUGHT

MARRIAGE

A happy marriage is a new beginning of life, a new starting point for happiness and usefulness.—Arthur P. Stanley.

Marriage should improve the human species, becoming a barrier against vice, a protection to woman, strength to man, and a centre for the affections.—Mary Baker Eddy.

The happiness of married life depends upon making small sacrifices with readiness and cheerfulness.—John Selden.

If you would have the nuptial union last, let virtue be the bond that ties it fast.—Nicholas Rowe.

When one is wise, two are happy.—H. G. Robinson.

Let me not to the marriage of true minds admit impediments.—William Shakespeare.

TO KEEP IT COOL

—Blissell in The Christian Science Monitor.

—Central Press Canadian.

Pilot attaches the airborne magnetometer, housed in a plywood casing which makes it look like a bomb, beneath his search plane.

They simply turned off their motors and drifted through the tide. Since our only anti-submarine weapons at that time depended on sound waves from the ship's motors to locate it, we had no effective way of stopping the enemy U-boats.

Then came the airborne magnetometer. Our scout planes would fly low above the water, trail the "bird" behind, and any large body of metal in the water could be located. When the "bird" passed over the metal of the U-boat, it would send up a signal. The plane would promptly release a depth charge.

The magnetometer is an instrument of many talents.

An interesting example of its use was the locating of many steel structural forms lost in Chesapeake Bay up the U.S. east coast during a hurricane. One of the largest bridges in the world spanned the bay, but in November of 1950 a storm sank a large loaded with the highly-expensive, specially-made steel forms for the bridge.

It would have taken months to replace them, and because of the demands of war, steel was precious.

The airborne magnetometer located the sunken barge and divers promptly raised the precious trusses. Aerial magnetometer flying is the most precise and hazardous in the world. The plane must be flown perfectly straight despite crosswinds, and it must go low (500 feet) and slow (145 m.p.h.).

Magnetometer pilot Frank McWilliams, who has flown his special DC-3 on four continents prospecting for minerals, sometimes passing over head-hunter territory and flushing up herds of wild elephants and similar critters puts it this way:

"It's really dangerous. Take a survey we recently did near Johannesburg, South Africa, looking for a lost vein of gold. We had to fly at a constant 500-foot altitude. We were crossing high mountains and deep valleys. Sometimes we'd fly 3,000 feet straight up to get over a mountain and then we'd dive 3,000 feet straight down on the other side of it. All the time we had to be perfectly straight and a constant 500 feet above the ground."

We suggest the colour scheme be worked up from a good plastic-coated, washable wallpaper. The pattern could be placed on the wall above the tile she plans to use or for a pleasant variety she might try it on the ceiling. The wallpaper which has an apple, pear and leaf design on a yellow background would look well in this room. There are bright red, soft blue and clear, clean yellow in the pattern which would form the basis of her kitchen colour scheme.

We suggest the cupboards could be finished in a clear natural grain. A natural varnished surface is much easier to keep clean than a painted one. Finger prints do not show, cupboards will not have to be washed as frequently and the finish will last longer.

Now add some of the good splashes of colour which appear in the wallpaper. Paint inside the cupboards a bright red and have a red ceiling. Buy a blue covering and repeat the same colour for counter tops.

Instead of curtains use wallpaper border that matches the pattern. Paste it around the frame of the window and use either a simple washable pull blind or a venetian blind to cut out the direct rays of the sun. The wallpaper border should be pasted on the frames of the doors as well to add more colour.

TRY AND STOP ME!

By BENNETT CERR

A henpecked husband (so aggravated a case that he was reputed to cackle in his sleep) bought a shiny new sedan, and of course his wife stepped right in behind the wheel. Unaccustomed to the new dashboard arrangement, however, she confessed, "I really don't know what to do with this thing." "It's very simple," said her husband resignedly, "Just imagine I'm driving."

A lady consulted her doctor about her husband's habit of talking in his sleep. The doctor proposed a remedy to make him stop. "Oh, no," objected the lady. "I only want something to make him talk more distinctly."

The English channel once was a great river valley.

Lion's Gate Pancakes Are Good

By KAY BEEK

(Canadian Press Staff Writer)
Anyone want any "Lion's Gate Pancakes?"

These are described as a distinctive dish of British Columbia in a cross-country book of recipes published by the Junior Chamber of Commerce.

The recipe: Two cups sifted pastry flour; one-half teaspoon salt; four teaspoons baking powder; two eggs; 1½ cups milk; three tablespoons melted shortening.

Sift dry ingredients into bowl and add beaten eggs, milk and melted shortening. Mix well and drop by spoonfuls onto a hot greased griddle. When bubbles appear, turn cakes and brown on other side. Serve immediately on hot plates.

Serve with hot applesauce and whipped cream instead of the usual syrup. Sweeten the cream with brown sugar or ground-up maple sugar. Put hot applesauce and whipped cream into separate large bowls, sprinkle both with grated nutmeg and let each person help himself.

Yield: Four servings.

Laurentian Soup

From Quebec where "the French Canadian cuisine is the result of a dense generations of good cooks," there comes a recipe for Laurentian family soup.

Ingredients: One small cabbage; one carrot; one-half small turnip; two onions; four tablespoons butter or margarine; salt and pepper; two cloves; two quarts beef stock; one tablespoon chopped parsley; French bread, cut into cubes.

Method: Wash cabbage, peel carrot, turnip and onions; cut in small cubes. Melt the butter in saucepan and add the vegetables, stir. Season with salt and pepper and add cloves. Cover and cook slowly for 20 minutes. Add the stock and simmer for 30 minutes. Add parsley and a little grated nutmeg. Brown this slice of French bread. Sprinkle with cheese. Place on top of each serving of soup or put in bowls, then fill bowls with soup.

Yield: 8 to 10 servings.

Recipe Rhyme

The St. Thomas Times-Journal recently published several rhyming recipes printed for housewives of 100 years ago. Here's one for bread pudding.

Get a dish deep and wide and rub round the inside with a little fresh butter or lard.

That the pudding may be, to a certain degree, Good in form, when turned out, but not hard. Then of stale bread procure half a pound, and be sure to reduce it to crumbs: next obtain four-sixteenths of a pound of loaf-sugar well ground and some lemon-juice cut up. Again Beat to cream five or six new-laid eggs, to which mix two half pints of pure milk by degrees;

Pop it into the pot, when the water is hot, boil one hour, and then it will please.

Wonder if the housewives sang at their work 100 years ago?

GIRLS WARNED NOT TO LET MEN ESCAPE

WOODFORD, Eng.—The vicar of Woodford, Rev. D. C. Mumby, suggests in his church magazine that parish girls guard against letting girls from other districts romp away with the men.

"Although we have lots of attractive girls, we have only one or two weddings each quarter," he complained.

The average farm price per gallon of Canadian maple syrup was \$3.46 in 1952 as compared with \$3.69 in 1951.

—Central Press Canadian.

SATISFIED WITH MILITARY SETUP IN ALASKAN AREA—General Omar Bradley, chairman of the U.S. joint chiefs of staff, and General Nathan Twining, (rear), vice chief of staff of the U.S. air force, are seen following their arrival in Washington, D.C., from a 10-day tour of Alaskan military installations. The general reported that American air and ground forces in the Alaskan outpost are now strong enough to give a good account of themselves in the event of a Russian attack.

It's Time To Buy Chicken For Stew

This is the time of the year when plump fat hens are chosen from the summer flock and sent to market in quantities for the sole purpose of going into the stewing pot or your own special chicken pot pie.

Stewing chickens need long, slow cooking in water below the boiling point or by steaming. A large size bird will probably need 3 to 4 hours of simmering to tenderize. Chicken meat will be juicier if the bird is allowed to stand in the broth to cool after cooking.

But cooling should be limited to an hour because warm chicken broth spoils quickly. When cool place both broth and meat immediately in refrigerator until ready to use.

OUR COMPLETE SHORT STORY—

.... And She Be Fair

By DAY RUSSELL

THE grandmotherly lady was not a person you could ignore. There was a serenity about her that was almost a kind of radiance. She sat her back-gloved hands crossed on her lap, in the corner of one of the heavy oak double-sided benches that hyphenated the length of the art gallery. She gazed quietly at one picture.

The gallery was exhibiting the collection of Harvey J. Collinson, the city's wealthiest citizen, lately deceased. He had collected art, at first with zest and later with discrimination, and he had bequeathed his collection to the city. Now it was being exhibited, old masters and modern, each in its separate rooms, and the rest, a mixed bag of unknowns, in this gallery where the old lady sat.

She had been the first in on this weekday morning but now students were coming in. Two of the older ones, a boy and a girl, slid down into the bench where the old lady sat.

"They should have thrown out some of the stuff in this room too," the boy was at the arrogant stage of his convictions. "Sweet stuff."

"And she be fair," read the girl aloud. "Vivian Gray. Ever heard of him?"

"Never," said the boy. "Didn't they just love to throw a young girl down on a bank of flowers and paint her all sweetness and light?"

"But she is lovely," said the girl slowly.

The boy nodded with superiority. "Idealized sentiment. But she was never like that." They started as the old lady turned to them. "You see, I knew her."

Awkwardly, to save fumbling for a reply, they turned to look at the picture again. It was a huge canvas in which a life-sized girl, young and lovely, lay in a patch of mottled sunlight against the shadow of a woodland glade.

"Look at the perfect detail," said the girl.

"Detail doesn't count. Might just

as well, have a color photograph," said the boy.

"But no," said the old lady, quietly. "No! Can't you see? She is in love."

"Yes," breathed the girl. "Did you know the artist too?"

"Yes. Very well. He painted that picture fifty years ago . . . in this city."

The boy spoke. "But nobody ever heard of him."

"It was harder for artists in those days. There was no interest in art."

"No interest?" said the boy quickly. "Collinson bought that picture and I'll bet he paid a pretty price for it."

"Twenty dollars," said the old lady sadly. "That was the first picture he bought, that started his collection. He had to buy others . . . more and more to make that girl seem smaller and less disturbing."

There was a pained expression on the girl's face. "But I don't see . . ."

The old lady went on. "In a way it was that picture that gave this collection its title."

"A million dollar collection," said the boy.

"And it was because of that girl Harvey Collinson bought the picture. So in a way she gave birth to this collection."

The old lady seemed to search her mind for a date. "1893," she said softly. "That was the year the artist came back from Paris. He had been left some money and went to Paris and stayed there until his money was gone. He and Harvey Collinson had been at school together but Harvey had left school at fourteen to work in his father's machine shop. By the time the artist returned from Paris, Harvey had taken over the business and moved into a brick building. He was full of ambition. He was also engaged to the girl."

The girl whispered. "That is why she looks so happy?"

"No," said the old lady. "When the artist returned she broke the engagement. Harvey wouldn't let her go without a fight. He said he would never forgive her everything she could want. He asked what the artist could give her."

"What did the artist say?" The girl hung on the reply.

"He laughed and said, 'I will paint her picture and the one thing every woman is afraid to lose, her youth.'"

"To show the two young people how true those words had been. Then he quoted that line of Keats . . . 'Forever with thou love and she be fair.'"

The boy leaned forward. "For ever she'll be fair! He was right. There is the girl, the model, still young, still perfect, while the artist is forgotten and Collinson is dead."

The old lady waited a moment before she spoke. "Harvey Collinson was angry. He said she was a fool to marry an artist. . . . that painting her wouldn't pay their bills. Who did they suppose would buy it?"

"Not you," said the artist. "We'd have to be starving before I'd sell it to you."

The girl whispered the next words. "And he paid only twenty dollars for it?"

The old lady lifted her hand again. "It doesn't seem to matter now, does it?"

The boy frowned. "And he never painted another picture anybody ever heard of. . . . I don't understand. How could he paint like that and yet nobody ever heard of him as a painter?"

"Sometimes," said the old lady. "I think that fame and love are like oil and water. They do not go together."

She gathered her coat about her and rose. She stood for a moment before the picture. As she turned to go she looked down at the young lovers:

"But we were very happy" (Copyright Winnipeg Newspaper Syndicate)

Daring Doe

After roaming through the lawns and gardens of the Jasper Park Lodge, in Alberta, this fair-colored doe decided to pay a personal visit to Bill Shell, who is head gardener at the famous lodge in the Canadian Rockies. And she wasn't disappointed, as the photo shows. She got a hand-out, then happily and gracefully strolled away.—Central Press Canadian.

Mama Bear To Rescue

VANCOUVER, B.C. — A little brown bear, caught in a tree here by Francis Stewart, was locked in a shed in the garden. It wasn't long before the mama bear arrived to shatter the shed door and drag her offspring back into the woods.

Good Bag of Geese

WEBB, Sask. — A group of local hunters recently had a good day when they bagged 22 Canada geese. The big birds were taken near the south end of Antelope lake on the farms of the Weston brothers and J. Bailey.

Music From Moscow

FLIN FLON, Man.—Minors searching for strategic materials in the barren lands 800 miles north of here—1,400 miles north of Winnipeg—have been getting programs from Moscow in their radio sets in the evening hours. The crews have been drilling for nickel ore here.

Mammoth Egg

ROCKY MOUNTAIN HOUSE, Alta.—Mrs. Fred Apple, at Hinton, displayed a hen's egg of unusual size—more than three inches in length and double-yolked. She has been finding one like this every year for 10 years.

Men At Cooking Schools

WINNIPEG.—The housewives symbol, the rolling pin, is passing into male hands, says Dorothy Rimmer, home economics lecturer here. She

SELECTED

Recipe

RICH PANCAKES AND WAFFLES

Interchangeable cookery method will give you crisp waffles, tender and light—or delicious thinish pancakes. Serve with butter or margarine, and for a savory dish, add bacon, sausages or creamed fish, poultry, etc. or use sweet accompaniments such as syrup, honey or conserve.

2 cups once-sifted flour
or 1½ cups once-sifted all-purpose flour
3 teaspoons Magic Baking Powder
¼ teaspoon salt
Few grains dark nutmeg
2 tablespoons fine granulated sugar
2 eggs, separated
1½ cups milk
½ cup butter or Blue Bonnet Margarine, melted

Sift flour, Magic Baking Powder, salt, nutmeg and sugar together three times.

Beat egg yolks until thick and stir in milk.

Add flour mixture about a quarter at a time, beating with a rotary beater until smooth after each addition; mix in melted butter or margarine.

Beat egg whites until stiff but not dry; fold into batter.

Bake as pancakes or waffles.

Yield: 2½ dozen averaged-size pancakes or 6 four-section waffles.

Alta. Brothers Believed Oldest Identical Twins In Canada

CALGARY.—The Graham brothers—Joe of Calgary and Ben of Vulcan, some 65 miles south—are believed the oldest identical twins in Canada, if not elsewhere. Joe and Ben, the eighth and ninth members of a family of 11, celebrated their 90th birthday recently.

The Calgary twin was still countenancing from an illness and was unable to take part in the annual birthday celebration. But at Vulcan, Ben was at home to his friends as usual.

Great nephews of Canadian explorer Alexander Mackenzie, Joseph and Benjamin were born in 1852 at Sandy Hill, West Hawkesbury, Ont., the sons of John Graham and Jean Mackenzie, who came to Canada in 1814. Joe took up carpentry, which later he gave up to join Ben at lumbering in the Wisconsin woods. They returned to Canada and bought a farm in Ontario.

Joe married in 1888 and remained on the farm while Ben journeyed to Montana where he worked for four years. Then, in 1903 Ben came to Alberta and took up a homestead near Vulcan. He still lives on his original land. He married that year and had three children, all still in Alberta.

Joe went to Vulcan in 1905 but was not able to stay long enough each year to prove up a homestead because he was still keeping the On-

Reaps "Siamese" Wheat Crop

GRAVELBOURG, Sask.—Double-headed wheat, with two heads of wheat on one stem, turned up on the district farm of Roscoe Bekker. He says that while the whole crop was not of the "Siamese" variety, there were enough double-headed stalks to increase the yield appreciably.

The banana is an herb, the largest growing in the world.

Folks sure favor a MAGIC cake!

SELF-ICED SPICE CAKE

Mix and sift 3 times, 2½ c. once-sifted pastry flour (or 2 c. once-sifted hard-wheat flour), 2½ tsp. Magic Baking Powder, ¼ tsp. salt, 1½ tsp. ground cinnamon, ¼ tsp. each of ground cloves, ginger, allspice, nutmeg and mace; mix in ½ c. washed and dried seedless raisins and ¼ c. chopped walnuts. Cream ½ c. butter or margarine and blend in 1½ c. lightly-packed brown sugar; beat in 3 well-beaten egg yolks and ¼ tsp. vanilla. Add dry ingredients to creamed mixture alternately with ½ c. milk and spread batter in 9" square pan, which has been greased and the bottom lined with graham paper. Beat stiff, not dry, 3 egg whites and a few grains salt; gradually beat in 1 c. lightly-packed brown sugar and spread over cake; sprinkle with ¼ c. chopped walnuts; and bake in a rather slow oven, 225° F., to 1½ hours; cover lightly with brown paper for last half hour.

R4630

12-20-40

by Anne Adams

THIS IS A TWO-PIECER! You can wear these handsome separates together as the smartest casual you ever had, or with other separates for a smart brand new-season look! Blouse has sleeve yokes shown, or cap sleeve.

Pattern R4630: Misses' Sizes 12, 14, 16, 18, 20, 40. Size 16 blouse, 1½ yards 35-inch; skirt 2½ yards 35-inch fabric.

This pattern easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly size, Name, Address and Style Number and send orders to:

Anne Adams Pattern Dept., Winnipeg Newspaper Union, 50 Front Street W., Toronto.

Fire Prevention Week

October 5th - 11th

Is Required of us, ONE and ALL

FIRE PREVENTION does not happen. It is caused by the efforts of thoughtful men and women. Find out what you need to know about fire safety. This is a week proclaimed for that purpose. WORK IN CO-OPERATION with your Fire Department. The fire inspection service of modern fire departments, is developing to keep pace with modern machinery for fighting fire and more extensive training for firemen. Fire waste hinders progress. Death and destruction from fire can be prevented by remedy of fire hazards and by knowing what to do in case of fire.

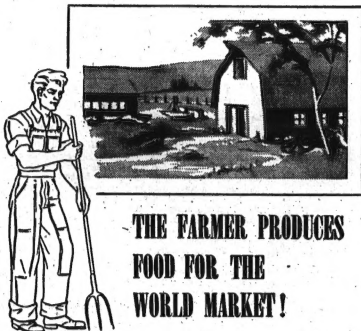

'Help Reduce Alberta's Fire Waste'

Hon. C. E. Gerhart,
Provincial Secretary

A. E. Bridges,
Fire Commissioner.

Those Wedding Pictures (High River Times)

One of the lighter pursuits of the summer season is studying the wedding pictures as appearing in the newspapers. There is one characteristic common to brides, it is their triumphant smiles, broad and beaming, indicating a thoroughly successful pursuit, and disclosing the perfect molar of the modern girl. By contrast, all too often the groom looks very grim. He faces fearful odds and he knows it. Once in a while they pose in front of the wedding cake his expression relaxes somewhat, and the shadow of a smile steals over his haunted visage. But this is rarely seen. As a rule the contrast between the boundless joy of the bride and the captive look of the groom is pitiful and quite misleading. Maybe he is as happy as she is, though he cloaks his throbbing heart under a forbidding exterior.

One might suggest to these charming little ladies that they tone down a bit. Admittedly the groom is a nice enough fellow but such a catch as those exultant smiles would indicate. Individuality gets lost under the common pattern, and they become faces as meaningless as the pretty girl cover pages on magazines or people of the movie world. These feminine faces in the press are forever smiling, whether noble or criminal, hostess or bored visitor, great or humble, bride or divorcee, every situation seems to call for jubilation. And not any wistful half-effort that may be appealing. They give it the works, right back to the tonsils. It gets monotonous.

Any girl who is so fortunate as to have an old family album up in the attic should take a look at her great-grandmother when she had her wedding picture taken. As a rule the groom was sitting, enthroned as befitted the dominant sex, and the bride stood modestly behind his chair, ready to serve his lightest whim. If one stood for the picture there was a pedestal behind, equipped with clamps that kept the head firmly in position, eyes focussed sternly on the fu-

MANVILLE COUNTY MAY BE FORMED

The Alberta municipal affairs department is considering setting up the county system of government in the Mannville and Camrose districts. It was reported at the legislative buildings Thursday.

The county system, under which a single council handles the functions of both the municipal council and school boards, is in effect at Ponoka, Grande Prairie and Vulcan.

A meeting has been scheduled for October 6 at Mannville, 100 miles east of Edmonton. Expected to attend are representatives of the provincial, municipal affairs and education departments, and representatives of local councils and school boards in the Mannville district. An application to have the county system set up also has been made by municipal officials at Camrose. The Camrose proposal, it is reported, is under consideration by the municipal affairs department.

There was none of the modern light heartedness displayed in those pictures. Both bride and groom knew they were in for tough going, and that is what their faces showed. Life was real, life was earnest; it was also terrifying and marriage was forever. But turn the pages of the old album and look at the photo of your forebears after forty years of marriage. They are mellow, buxom, serene, at ease with each other and with the world. Marriage wasn't so bad after all.

And that is how marriage usually works out. Not anything the fair dream that the expression of present day brides might indicate, and certainly not the grim ordeal that great-grandmother anticipated. Something in between, full of rewards, adjustments and discipline, but a state well worth entering. So our little brides of today would perhaps be nearer reality if they practiced an expression indicating hope rather than assurance. A lot of living lies ahead.

Kinsella News

Mr. and Mrs. R. Kennett of Winfield, were visitors last week at the home of Mr. and Mrs. J. Kennett.

Mr. and Mrs. R. Loney and family of Alix were recent visitors at the home of Mr. and Mrs. E. Mark.

Mrs. C. Turnbull has returned home after spending a holiday with her daughters and sister-in-law Mrs. J. McMillan of Edmonton.

Miss Irene Lancaster was a week-end visitor at her home here.

Mr. and Mrs. R. Eaton of Irma were Sunday visitors at the home of Mr. and Mrs. R. Cormack, also Mrs. R. Larson and Mrs. Savard of Irma were visiting at the home of Mr. and Mrs. Frank Murray.

Mr. and Mrs. R. Niddre of Edmonton were recent visitors at the home of Mrs. F. Hajek.

Threshing is progressing in the district, and the return of favorable weather is very welcome.

Other week-end visitors from the city were Miss Frances Brown, Mr. J. Plowman, Mr. Jimmie Long, Mr. Jack Barker, Mr. L. Pedersen and Mr. and Mrs. W. Hughes.

Donations

In memory of Mr. C. Turnbull: Mr. and Mrs. J. A. Barker.

In memory of Mr. J. Harding: Mr. and Mrs. B. Armitage and family; Mr. and Mrs. P. Mollier.

Mr. and Mrs. C. Powell are holidaying with relatives in Edmonton and Calgary.

Don't forget the date of the annual Chicken Supper sponsored by the Kinsella Ladies Aid, Friday, October 17.

A cordial invitation is given to all to attend the Thanksgiving Service to be held in the United Church on Sunday, October 12. Special music by the children of the Sunday School.

The Western Harvest

THE SUCCESS OF THE WHEAT CROP is of great importance to the people of Western Canada. On it depends, for a large part, the prosperity of the farmers and of local merchants and others who depend for their living upon supplying the needs of those on the farms. However, the size and quality of Western Canada's wheat harvest affects, as well, many thousands of people far removed from the Western prairies. Those who work for the railway companies, the elevator companies, and seamen on the freighters which carry the grain to other lands are among the many who benefit when a large crop and one of high quality is harvested in the West.

Wide Interest In The Crop

Early frosts, such as occurred three years ago, or heavy rains, such as those which damaged the wheat last year are disastrous to the hopes of the farmers, but they also affect the prosperity of all those whose living depends upon the handling of the crop after it is harvested. It is disastrous, too, to the business communities in the West and to those in other parts of Canada who supply these communities. The expression "One World" has become a part of our vocabulary in recent years, and separation of the affairs of one group of people from those of others is becoming increasingly rare in these times. It is not new, however, for the eyes of the rest of Canada and of other parts of the world to be on the West at harvest time.

Is Need For Wheat Abroad

This year there have been smaller grain crops in other parts of the world and there is need abroad for Canadian wheat to make up for these shortages. So while the Western farmers market their wheat and balance the returns of their year's work, they may know that many others, from coast to coast in Canada, are likewise affected by their success and that upon it depends the prosperity of other Canadians and perhaps the lives of people in less fortunate countries. The taking in of the crop has long been an event in the lives of the people of the West, but they may not realize how many, not known to them, share their interest and concern.

Saskatchewan, Canada's No. 2 Oil Province, Potential Doubled

CALGARY, Alta. — Saskatchewan, Canada's No. 2 oil province, has doubled its oil potential in recent months, to a current productive ability exceeding 8,000 barrels daily, and in recent weeks has boosted actual production for the first time to more than 5,000 barrels daily. The potential is expected to materially increase over the next few months, from evaluation drilling of recent discovery areas, and probably from new strikes. Actual production will likely get its next large boost next spring.

The Saskatchewan picture compares with current oil production of around 185,000 barrels daily in Alberta, and Alberta, potential of around 280,000 barrels daily. In third place is Manitoba, with current production of some 600 barrels daily and potential exceeding 1,000 barrels. Manitoba output is expected to pass 1,000 barrels daily in a few weeks, with completion of facilities for deliveries to the Alberta-Great Lakes interprovincial pipeline.

At the time of Alberta's Leduc discovery in February, 1947, Saskatchewan was producing 620 barrels of Lloydminster heavy crude daily. Compared to Alberta's 18,000 barrels daily mainly from the Leduc field. During the spectacular climb of Alberta discoveries, potential and production since 1947, Saskatchewan has also been moving upward. Daily average was 1,470 barrels, increasing to 2,342 barrels daily in 1950, reaching 2,852 barrels daily in 1951, 3,422 barrels daily in 1952, and averaging 4,120 barrels daily during first half of 1952.

The greatest Saskatchewan encouragement has come this year. In the southwest corner of Saskatchewan, 95 miles north of the American border, Socony-Vacuum Exploration Company has recently made four discoveries on lands secured under farmout from Western Prairie Exploration Company and Southern Production Inc. These strikes are in the Fostererton-Cantuar-Midway-Success area.

So far 14 Fostererton area wells have been completed with oil indicated. Three rigs are engaged in evaluation drilling. Indicated potential is over 1,200 barrels daily and should be substantially increased in coming months. Actual production is small, averaging around 150 barrels daily, and no great increase is likely for some months. Primary concern of Socony is evaluation of the area. There are good reasons to expect that evaluation will justify in the next year or so construction of pipeline facilities for low cost transport of production to market.

Fostererton Pool currently has nine wells capable of production. Only one is being operated. Its potential is about 300 barrels daily on one quarter inch choke, with crude from the lower cretaceous pay sand showing about 24 degrees API gravity. The Cantuar Pool, 8½ miles southeast of Fostererton Pool, now has three wells capable of production, pay zones being two lower cretaceous sands, one yielding 25.1 gravity oil, the other 11.6 gravity heavy crude. The Success Pool, 10 miles east of Fostererton Pool, has at present a discovery capable of producing 22.6 gravity oil from a lower cretaceous sand. The Midway Pool, 15 miles southwest of Fostererton Pool, has a discovery oil well capable of producing 19 gravity crude from a Jurassic sand. A gas discovery well is also in the Midway area.

Now Many Wear FALSE TEETH With More Comfort

FASTERTH, a pleasant alkaline (non-acid) powder, helps false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTERTH on your plates. No gummy, gooey, pasty taste or feeling. Checks "dread" (denture breath). Get FASTERTH at any drug store.

Workers' Mascot A Fisherman

Bullet, mongrel mascot of workers at Bonneville Dam, near Portland, Ore., engages in his favorite sport of trying to catch huge salmon as they leap over an intake to spawning grounds. At left he watches excitedly as one of the fish glides by out of range but at right he snags one in mid-air. However, like every fisherman, he learns that hooking them is one thing and hauling them in is another—the big fellow got away.

Arizona Grain Grower To Establish Large Alfalfa Seed Farm North Of Flin Flon

FLIN FLON, Man.—A 2,000 acre farm producing registered alfalfa seed for the Canadian market is being established less than 75 miles south of Flin Flon.

Buildings are busy at the present time tearing out bush that covers over three sections of land on the outskirts of Wanless some 35 miles south of the 54th parallel.

When broken the land is expected to produce thousands of bushels of registered seed that will be sold at top market prices for planting in other parts of the Dominion.

The large project is being undertaken by W. Wright of Arizona. A certified seedgrower and rancher in the United States, Mr. Wright purchased the large tract of land from several residents of Wanless last winter and is still seeking to buy further acreage for his venture.

He has established a home at Wanless and travels between the two widely separated farms by private aircraft. A landing field has been built on his northern farm to allow him to land in his own back yard rather than motor from the field at The Pas 30 miles south.

Mr. and Mrs. Wright have been at Wanless since last July although they recently flew back to Arizona. He will return shortly.

Mr. Wright first learned of the area through the Dominion government and a year ago paid a visit to the north.

He took samples of the soil at that time and had it analyzed in Arizona. According to the Wrights the soil is very rich and extremely suitable for growing alfalfa as well as other crops.

The soil was found suitable for growing certified seed a few years ago when a Nipawin farmer cultivated several acres in the area and tested its productive ability.

Funny and Otherwise

"I need five dollars at once, and I've only got four. What am I going to do?"

"That's simple. Go pawn the four dollars for three, and then sell the pawn ticket for two."

Doctor—Do you suffer from heat in the summer?

Patient—Indeed I do! More than in any other season.

"He says he's in two minds whether he'll marry her or not?"

"Yes—hers and her mother's."

The door-to-door salesman was not at all welcome.

"If you are not off my doorstep in thirty seconds," said the householder, "I'll—"

"Now, what can I sell you in half a minute?" replied the salesman, cheerfully.

A class of small girls had to draw a flower. As a preliminary to the lesson, questions were asked about it and the national emblems of the other countries of the British Isles.

"And now what is the national flower of England?" inquired the teacher.

"Please, teacher," replied a little girl, "the aspidistra."

On a card in the front window of a suburban home appeared the following notice:

"A piano for sale."

In the window next door another card appeared with just one word:

"Hurrah!"

Returning from his office one evening, a business executive was startled to see a new and very luxurious Oriental rug on the living room floor. His wife appeared and said, "Now, don't look so shocked, dear. After all, you spend plenty of money in night clubs and—"

"Good heavens!" he murmured. "I've never spent this much on a floor show!"

A pretty girl, speeding through the traffic, was stopped by a policeman. "Look here," he growled, "where's the fire?"

"What are you worrying about?" she countered, "You're not a fireman."

Flin Flon Chinese To Confer With Chiang

FLIN FLON, — Charlie Young, Flin Flon hotel operator, has left for Formosa where he will confer with Gen. Chiang Kai-Shek, National Government head, on assistance that can be given to the homeland by Chinese living abroad. He was accompanied by Mrs. Young.

Mr. Young was selected by the Canadian Chinese benevolent society to represent Canadian Chinese at the conference.

The chortling breed of cattle is the most common beef animal in the British Isles.

ODDITIES In The News

Miles Baker of Shelby, N.C., cotton mill superintendent, is absentminded, and glad of it. When he went to a mill substitution to put the switch back after power was interrupted during a storm he found he had left the key at the office. A few minutes after he turned back, the switch blew up.

Elk Grove, California, state trappers finally caught a three-legged coyote that had killed 20 lambs in 30 days. The animal apparently came out of the hills into this valley town because its crippled condition made it impossible to compete with other predatory animals in the wilds.

Despite his blindness, 66-year-old George Serrant of New Bedford, Mass., maintains his garden. He can identify any garden plant simply by touch.

Astonishing, city officials of Paris sent out for more champagne after delegates to the Congress Against Alcoholism drank up five cases at a civic reception.

Mrs. Louis G. Camirand, wife of Fort Frances, Ont., police chief, laid aside her \$45 coat at a recent church rummage sale. It was sold for \$1.

ROOM IN VEHICLE SALES BRITAIN.—Sale of cars and trucks in Saskatchewan is expected to top the \$80,000,000 mark this year.

Do You Know That . . .

Canada ranks first in world production of nickel, asbestos and the platinum metals.

Handy, thrifty, delicious!

"SALAD" TEA BAGS

Flaky COFFEE CAKES

These toothsome Flaky Coffee Cakes are a sample of the superb results you get with new Fleischmann's Fast Rising Dry Yeast! No more anxiety about yeast cakes that stale and weaken! Fleischmann's new Dry Yeast keeps full strength fast-rising without refrigeration—get a month's supply!

● Soak ½ c. cream; 2 tbs. granulated sugar and ¼ c. shortening; cool to lukewarm. Meanwhile, measure into a large bowl ½ c. lukewarm water; 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Fast Rising Dry Yeast. Let stand 10 minutes. THEN stir well.

Add cooled cream mixture and stir in 3 well-beaten eggs. Stir in ½ c. unsifted bread flour; beat until smooth. Work in 2½ c. (about) once-sifted bread flour. Knead on lightly-floured board until smooth and elastic. Place in greased bowl and grease top of dough. Cover and set in a warm place, free from draught. Let rise until doubled in bulk. Mix ¾ c. granulated sugar and 2 tps. ground cinnamon; sprinkle half of this mixture on baking board. Divide dough into 2 equal portions and turn out one portion onto prepared board. Roll out into a 12" square; fold from back to front and from one side to the other. Repeat rolling and folding 3 more times, folding board lightly if it becomes sticky. Seal edges of folded dough and place in a greased 8" square cake pan and pat out to fit the pan; butter top lightly and press walnut halves well into the dough. Sprinkle remaining sugar and cinnamon mixture on board and treat second portion of dough same as first portion. Cover and let the unit doubled in bulk. Bake in a moderate oven, 350°, 15 mins., while preparing the following syrup; simmer together for 5 mins., 1 c. granulated sugar, ½ tps. grated orange rind, ¼ c. butter or margarine and ¼ c. orange juice. Quickly pour hot syrup over the 2 partially-baked cakes and bake cakes about 15 mins. longer. Stand baked cakes on cake coolers for 20 minutes, then loosen edges and gently shake from pan.

By Chuck Thurston

LONGEST TRAIN

WINNIPEG.—Longest train in the history of the Canadian National Railways here, a 185-car extra, snaked westward recently, testing the power of two new diesel locomotives. The train was 1.58 miles long. It included 168 empty cars, 16 loaded and a "Dynamometer" car carrying apparatus and officials.

Mrs. John Fisher Puts on Blue Bonnet — Enjoys F.N.E.!

Mrs. John Fisher puts on BLUE BONNET Margarine for F.N.E.—Flavor! Nutrition! Economy! PEGGY

POP! YOU'RE RIGHT! PEGGY'S REALLY IN IT! IT'S TERRIFIC! THEN YOU'RE NOT SORRY! FOR OUR VACATION THIS YEAR, BE A KITTEN! BY THE WAY, DO YOU CATCH ANYTHINGS? (SLEEPING DID IT!)

Keep Calm, Prevent Illness

Oiler, the greatest physician of modern times, had three ideals: One, to do today's work well and not worry about tomorrow. Two, to act the Golden Rule. Three, to cultivate a measure of calmness. The lack of calmness, thus allowing ourselves to get excited, anxious, depressed, interferes not only with our judgment but actually affects the proper action of the body processes—digestion, heart action, breathing, nerve control, etc. Get examined by your physician to make sure whether or not all your symptoms are due to your lack of calmness.

"WISHING WELL" DOES WELL. EDMONTON.—Mrs. J. A. Afoe reports that visitors to her garden this summer deposited more than \$70 in her Red Cross "wishing well". Money thrown into the well is turned over to the Red Cross Hospital for Crippled Children in Calgary.

PAYS HEAVY PENALTY. SHOAL LAKE, Man.—Ed Middleton of McCrellan, Man., was fined \$100 and costs and had his car impounded for six months for having an open bottle of liquor in his car.

JUNE MOST POPULAR

June is the most popular month for weddings in North America largely because the ancient Romans considered it the most propitious month. May, on the other hand, is considered the ideal marriage period in some European countries.

Soil Expert Predicts Famine In South Africa-Erosion Blamed

Condemns Africans for Devouring Their Heritage of Land — Forest and Water

JOHANNESBURG—With the rainy season approaching South Africa is beginning to cast an anxious eye at the weather. A drought might mean famine; even with good rains, food is going to be pretty scarce, according to some forecasts. Such claims are described by the agriculture department as grossly exaggerated, but they are taken seriously by many others.

C. J. J. van Rensburg, a government soil and grass expert, has stumped South Africa for years warning that soil erosion is bringing on the calamity of famine. He says: "This is my final warning."

Van Rensburg says bluntly: "We are facing famine. There will soon be shortage of meat, maize, wheat and dairy products. Housewives will queue as they have never done before and food prices will rise steeply."

One major cause of the erosion, root of the whole problem, was the way in which African tribesmen were driven to the hills in the century by Boers and British allies, leaving the great fertile plains to be divided among white settlers.

On the heights with their primitive husbandry, the Africans have devoured their heritage of land, forest and water. In their tireless search for firewood for instance they have uprooted practically every tree in hundreds of miles of country that was covered with woods or forest not more than a century ago.

In the lands below the rivers carry off an increasing tonnage of irreplaceable top soil and the biggest irrigation schemes silt up in a few years.

The farmers pulled to the river banks and the rivers run faster and faster with the years. On the great fertile plains of the Transvaal and Free State the white man's record has been little better. The soil has been exhausted by continuous crop production, with no rest, and by over-grazing.

South Africa has a state-subsidized organization called the National Veld Trust, which has the job of warning the people against the dangers of soil erosion.

The general manager, T. C. Robertson, tirelessly puts over the point of view that the soil structure is collapsing in the best farming areas—the great "maize triangle" of the

APPETIZING RECIPES

Tender Crumb Muffins, with dates peeping through the crust, make a tasty afternoon tea treat or supper dessert.

Date-Crumb Muffins

One quarter cup shortening, 1 cup sugar, 1 egg, 1 cup sifted flour, 4 tsp. baking powder, 1/2 tsp. salt, 1 cup fine dry bread crumbs, 1 cup milk, 1/2 cup chopped dates. Cream shortening and sugar until fluffy, stir in well-beaten egg. Sift flour with baking powder and salt. Add crumbs. Add flour mixture alternately with milk. Stir in chopped dates. Place batter in well greased muffin cups. Bake in moderate oven, 350 degrees F., for 25 to 30 minutes. Yields 6 large or 8 medium muffins.

Fewer Cattle, Horses Now In Saskatchewan

REGINA—Saskatchewan farmers now own fewer cattle and horses than they did in the census years of 1926, 1936 and 1946. E. Brockelbank, director of the Saskatchewan animal industry branch, said in a bureau of publications release.

Since 1926, though the number of horses and cattle has been reduced, the acreage of seeded and other pasture has increased.

In 1926 there were 2,260,000 head of horses and cattle on 300,000 acres of seeded pasture and 13,600,000 acres of other pasture.

Last year, there were 1,570,000 head of horses and cattle on 1,441,000 acres of seeded pasture and 20,000,000 acres of other pasture.

Throughout this period the ratio between cash income from livestock and the cash income from grain has remained fairly constant. Saskatchewan farmers depend less on income from livestock than Alberta and Manitoba farmers.

Mr. Brockelbank said that at this time of year consideration can be given to increasing cattle production. To utilize grass and feed, young cattle can be carried over and cheap gains can be made on next year's grass.

Meat Sandwiches Taboo At Border

WINNIPEG—The embargo on Canadian cattle entering the United States apparently applies to everything from an animal in a box car to one sandwiched between two pieces of bread.

A Winnipeg family, just returned from a visit to the U.S., recently reported the following conversation at the Neche, N.D., customs office. Officer: "Have you any food with you?"

Winnipeggers: "Yes, we have our picnic lunch."

Officer: "Any meat sandwiches?" Winnipeggers: "Yes."

Officer: "I am sorry, you'll have to leave them in Canada. You can't take them with you."

However, the Winnipeg family said "We did. We just backed our car up to the border, opened the picnic lunch and ate the unsanctioned sandwiches, then drove on."

New Industrial Era Looms For Edmonton During 1953

(By Jim Pencock, Canadian Press Staff Writer)

A new industrial era, based on Alberta's natural gas, will begin for Edmonton early in 1953 unless steel shortages and strikes cause further construction delays. Completion of the Canadian Chemical Company's \$55,000,000 plant on Edmonton's eastern outskirts will mark the opening of Western Canada's first large-scale chemical industry.

Utilizing the natural resources of Alberta—namely 40,000 cubic feet of natural gas daily—the new industry will provide basic chemical and materials which Canadian workers will turn into thousands of products for home use and export.

Natural gas is easily accessible from Edmonton and the city expects to reap great benefits from its strategic location in Alberta's oil and gas fields.

Besides Canadian Chemical, Canadian Industries Ltd., and Sherbrooke-Gordon Mines Ltd. are constructing plants in the Edmonton area, and when in operation the three will consume 57,000,000 cubic feet of natural gas daily.

C.I.L. plant, costing \$13,000,000 and to use 10,000,000 cubic feet of gas daily, will produce polythene, a plastic widely used in electrical and pharmaceutical industries. Sherbrooke-Gordon's \$12,000,000 plant, at Fort Saskatchewan, 11 miles east of Edmonton, will produce 17,000,000 pounds of refined nickel annually and its daily gas consumption will reach 7,000,000 cubic feet.

Canadian Chemical, using butane and propane gases, by-products of oil refining, will produce acetic acid, acetone and 10 other chemicals, several of them not yet being made in Canada.

Acetic acid, combined with purified woodpulp to be brought in from Prince Rupert, B.C., makes cellulose acetate. This is the basic ingredient in making acetate filament yarn, staple fibre and acetate plastics.

Cellulose acetate is processed with acetone to make the yarn and fibre and these are woven into fine fabrics used in weaving apparel, home furnishings and industrial items.

In full operation, the chemical plant's yearly production will reach 25,000,000 pounds of acetate filament yarn, a material similar to corn flakes. Of this, 10,000,000 pounds will be sold for export.

The Edmonton plant will turn 10,000,000 pounds into staple fibre and 5,000,000 pounds into acetate filament yarn.

An acid-claiming unit will produce formaldehyde, methanol, propylene glycol, pentaerythritol, isobutanol.

As an acid-claiming unit will produce formaldehyde, methanol, propylene glycol, pentaerythritol, isobutanol.

A clerk in a food store at Houston, Miss., put a bag of eggs under a refrigerator and forgot them until he heard clucking noises three days later. The heat of the refrigerator motor plus 100-degree-plus temperatures hatched out four baby chicks.

A wallet containing more than \$4,000 stolen from an English railway passenger 37 years ago has been found intact in the station cloakroom at Adelaide, Australia. The wallet was hidden by the thief between a cistern and the wall of the room to be picked up later. It belonged to "Mr. Newton" who reported the theft in 1915.

An advertisement in the personal column of the London Times sells "Man and wife, with car (aged 28, 28 and 16 respectively), seek employment."

B.C. Paper Big Winner In Competitions

ST. ANDREWS, N.B.—British Columbia and Ontario papers gained most of the Canadian Weekly Newspaper Association prizes announced at the C.W.N.A. annual meeting. The Powell River, B.C., News led the winners by taking all three first places in competitions for papers with a circulation between 2,000 and 3,000.

The winners: Circulation over 3,000—Best all-round paper, Barrie, Ont.; Examiner; best front page, Chilliwack, B.C.; progress; best editorial page, Newmarket, Ont.; Era and Express.

Circulation between 2,000 and 3,000—Powell River News, in all three classifications.

Circulation between 1,000 and 2,000—Best all-round paper, Gananoque, Ont.; Reporter; best front page, Dryden, Ont.; Observer; best editorial page, Gananoque Reporter.

Circulation between 500 and 1,000—Best all-round paper, Ladner, B.C.; Optimist; best front page, Ladner Optimist; best editorial page, Brighton, Ont.; Ensign.

Circulation under 500—Best all-round paper, Stevely, Alta.; Advertiser; best front page, Winkler, Man.; Progress; best editorial page, Hartney, Man.; Star.

Free Legal Aid Service Advocated

VANCOUVER—A free legal aid service for all Canadian provinces was advocated by B. R. Guss, Q.C., of Saint John, N.B.

He told the Canadian Bar Association that such a plan would free Canada's legal system from the attitude that justice is for sale and bring about greater respect for the law.

Smile Of The Week

THE IMPORTANT THING

Mr. Forsythe was visibly distressed as he staggered into the clubhouse. "What's the matter?" asked a member sympathetically.

"I've just killed my wife," said Forsythe.

"Good Heavens! How did you do that?"

"I was over in the practice tee and didn't see her coming up behind me. I took a back swing and hit her on the head. She dropped dead."

"That's what," said the other member. "What club were you using?"

3003

Helpful Hints

If milk has been slightly scorched the burnt taste can be removed if the pan containing the milk is in cold water and a pinch of salt added to the milk.

It is sometimes necessary to shrink thread if it is to be used for drawing work. This can be easily done by placing the spool of thread in a vessel of boiling water for about an hour. It will not destroy the gloss.

A small piece of bread held between the teeth while peeling onions will absorb the onion odor that makes you cry, only you must breathe through the mouth instead of the nose during the operation.

To soften butter and make it easier to measure. Place it in a fat baking pan and set into the oven for a few minutes. However, this must be watched closely to prevent burning.

Today is yesterday's pup!

Kiddies, Girls, Women's Stockings

HOSE for Taller Girls

Girls' Rayon Plaited on Cotton Hose. Good looking stockings. Beige shade. Narrow fitting shape leg for taller girls. Sizes 8½ to 10½. Pair **69c**
Silk Lisle Hose, shaped as above **1.00**

Women's Lisle Hose

Popular "Wear Well" full lisle 2 ply hose of fine quality. Good fit and finish. This hose is a big year to year seller with a good stretchy top. **1.00**
Sizes 9 to 10½. Pair

Kiddies' Clinknit Stockings

2 in 1 rib combed cotton stockings. Popular sun tan shade. Good looking, serviceable. 4 ply heel and toe. Good length and priced reasonably. Sizes 5 to 6½, 2 pair for **89¢**
Sizes 7 to 9½, pair **59¢**

J. C. McFarland Co.

BEEF GLUT FEARED

Dressed Carcasses Over 700 Lbs. Only Type to be Accepted

OTTAWA—The Canadian Government, concerned over the possibility of a beef glut and a storage bottleneck, has decided to drop price support for lightweight cattle.

Officials disclosed Wednesday that the Agriculture Dept. at present is offering to buy only heavy-weight cattle—dressed weight carcasses of 700 pounds and over. They said offerings to buy may be extended to lower weights later in the year, but at the moment

only heavyweights will be bought.

This means, in effect, that there is no Government floor price for lightweight cattle. Announcement of a reshaped price-support program last week indicated the price support would be extended to all "fully-finished" cattle.

Locals

The October meeting of St. Mary's W.A. will be held on Thursday, October 16 at the home of Mrs. F. Thurston at 3 p.m.

The total amount collected in Irma by the W.I. campaign for the Blind is the fine sum of \$121.29. We understand that this is an increase of about \$30.00 over last year.

Notice to all W.I. members.—Please have all sewing and fancy work articles for the Bazaar handed in by November 6.

A group of mothers with their children held a little surprise party on Thursday of last week at the home of M. and Mrs. R. L. Simmermon. The guests of honor were the twin grand-daughters Lynne and LeAnne Moyer whose first birthday it was.

We are glad to know that Mr. S. H. Simmons is sufficiently recovered to be out of hospital and is recuperating at the home of his grandson Bob Simmermon Jr.

The Rev. N. V. Ashdown and Mrs. Ashdown are Edmonton visitors this week.

The V. Torrance and M. Fahner families motored to Vermilion last Sunday.

We are sorry to learn that Iris Hurst is a patient in the Wainwright hospital this week.

The Junior W.A. is holding a sale of home cooking on Saturday, October 11 at the Irma Food Market. This sale will be on for both afternoon and evening.

Miss Jean Larson is now employed with the Bank of Montreal.

The Women's Prayer Band of the Christian and Missionary Alliance Tabernacle met on Oct. 3 at the home of Mrs. Roy Reber. Mrs. Ashdown gave a report on a women's meeting which she attended with other pastor's wives and lady workers at a recent conference in Regina. The next meeting of the Women's Prayer Band will be held at the home of Mrs. Leo Shaw November 7.

Mrs. Ralph Moyer and twin daughters left Irma on Thursday night for Goderich, Ont., where they will join L.A.C. Moyer who is continuing his training in the East.

Mr. and Mrs. Harold Pascha and Grace have moved from Fabyan to St. Paul where Mr. Pascha has been promoted to the position of Road Master.

Mrs. Inklin Sr. has been a recent visitor at Irma with Mrs. L. A. Johnson.

Rev. Geo. Hart of Brownfield, Alta., was an Irma visitor last week. Mr. Hart was the former Christian and Missionary Alliance Pastor here.

Mrs. G. Whidden and Wayne, Gail and Lauren took up residence this week in the Matthews house, formerly occupied by Mr. and Mrs. I. S. Reber.

Mr. and Mrs. Carl Larson left Irma this week for a trip to the U.S. where they will visit with relatives at Garrison, North Dakota. The many friends of Mrs. Harry Halverson are very happy to know that she has shown good improvement since her last visit to the hospital and can now get about quite well with the aid of a crutch.

The October meeting of the United Church Men's Club has been postponed until Tuesday, October 21 on account of the busy season.

Combines can be seen working at night as every effort is being made to harvest this year's bumper crop. Threshing is well advanced and everyone is rejoicing over the lovely weather. If all this continues just a little longer it's going to look as though the western farmer has at last caught up to what was always formerly known as "next year."

Floor Price for Hogs After Sept. 30

Ottawa, Sept. 25—The Minister of Agriculture announced today that the present floor price for hogs, equivalent to \$28.00 per hundred pounds warm dressed weight for Grade A carcasses basis Toronto and Montreal, would be maintained until December 31, 1952. After that date a floor price of \$23.00 per hundred pounds would be established on the same basis. In making this announcement the Minister indicated that the Government wishes to maintain the present floor through the fall marketing period for hogs now on feed.

IF PRICES RISE BETWEEN NOW AND NEXT SPRING—YOU PAY TODAY'S PRICE.

IF PRICES FALL YOU PAY ON THE BASIS OF THE LOWER PRICE.

This is an offer we've been making year after year and more and more farmers are finding it pays. The offer is open until Dec. 31st. Nothing to pay down—pay only on delivery sometime between Feb. 1st and April 30th. If prices rise between now and spring delivery you pay today's price. If prices drop between now and spring delivery you pay on the basis of the lower price. No matter what way you look at it you have everything to gain and nothing to lose. Don't delay. Place your order now!
